Ink & Stain Remover Stick

Part # IR-162-Stick

DATA SHEET

Aviation Cleaning Supply • 1 Warren St. • Johnstown • NY 12095 • 518.705.4038

Description

Ink & Stain Remover

ACS IR-162 Ink & Stain Remover Stick is a product specifically formulated to remove fresh ink stains and soils from finished leathers, e-Leather and vinyl surfaces. Other aggressive cleaners can often cause damage to the color coating. **ACS IR-162 Ink & Stain Remover Stick** minimizes damage to the finished coat and reduces the need for recoating.

Product Advantages:

- Quickly removes fresh ink and stains from leather, e-leather or vinyl
- Can be used on any finished color
- Removes Ink, coffee, blood, scuff marks, lipstick, crayon
- Non-toxic, bio-degradable
- User friendly

Directions of Use:

Clean affected area with **ACS LC-364 Leather Cleaner** prior to ink removal. Test **IR-162 Ink & Stain Remover Stick** in an inconspicuous area to test for color fastness.

Do not proceed if any paint finish transfers to cloth unless touch-up finish is available.

Apply **IR-162 Ink & Stain Remover Stick** to the surface and gently rub in a circular motion directly to the stained area. Periodically, wipe residue from the stick head. This will prevent spreading of the ink stain. Allow the solution to remain on the surface as the ink stain becomes loosened (approximately 30 seconds). Blot dry with a microfiber towel and repeat as necessary. Wipe ink off stick with cloth each time used to avoid re-staining.

Once stain is removed, re-clean with **ACS LC-364 Leather Cleaner** and then condition area with **ACS LCP-382 Leather Conditioner/Protector**.

Chemical Properties:

Appearance: Whitish with light odor
Specific Gravity at 68deg F: <1
Solubility in water: Miscible in water
Stability: Stable

Health & Hazards Rating:

Category	NFPA	HMIS
Health	1	1
Reactivity	0	0
Flammability	1	1
Protective Equipment	None	B
