

Leather Cleaner

Part # LC-364

DATA SHEET

Aviation Cleaning Supply • 1 Warren St. • Johnstown • NY 12095 • 518.705.4038

Description

Leather Cleaner

ACS LC-364 Leather Cleaner is formulated to remove soils and stains from finished leather, e-leather and vinyl surfaces. **ACS LC-364 Leather Cleaner** is tough, pH balanced and uses a new generation, low foaming nonionic surfactant system to produce high performance results without harming leather. These innovative emulsifying surfactants meet the criteria for EPA's Design for the Environment Surfactant Screen.

Product Advantages:

- Removes heavy soil
- Safe, yet effective
- Proper pH for leather
- Rejuvenates finish coat
- Does not leave solids behind
- Low foaming - easy clean up

Directions of Use:

Remove excess topical soil with clean cloth. Prior to application, be sure to pre-test **ACS LC-364 Leather Cleaner** in an inconspicuous area to test color fastness. Apply **ACS LC-364 Leather Cleaner** directly on an ultra fine abrasive pad. Rub the applicator onto surface to be cleaned in circular motion with moderate pressure creating light suds, loosening soil. Wipe off with a clean, dry cloth.

Use **ACS LCP-382 Leather Conditioner/Protector** to prolong and protect the life of leather surfaces.

Chemical Properties:

Odor: None
Appearance: Clear liquid
Specific Gravity at 1.01
pH: 6
Solubility in water: Soluble
Stability: Stable under normal storage conditions

Health & Hazards Rating:

Category	NFPA	HMIS
Health	1	1
Reactivity	0	0
Flammability	0	0
Protective Equipment	None	B

LC-364 Conforms to:

Boeing Specification D6-7127 Rev P: Cleaning interiors of commercial transport aircraft

AMS 1550B: Cleaner, water base, aircraft material, interior, hard surface cleaner
