

# E-LEATHER<sup>®</sup>

## Part # LCP-382-E Protector

### DATA SHEET

FOR E-LEATHER/READY-TO-USE

2  
STEP

#### Description

##### E-Leather Protector

After cleaning your E-leather with LC-364-E E-Leather Cleaner, allow the surface to air dry prior to applying LCP-382-E E-Leather Protector.

LCP-382-E E-Leather Protector is formulated to assist in providing added protection.

This added barrier of protection helps in the subsequent cleaning and ink removal by keeping the soils and ink from penetrating into the material between cleanings, additionally, it will assist in nourishing and lubricating the fibers of material.

#### Product Advantages:

- Prevents Cracking & Premature Aging
- Resists Soiling
- No V.O.C.
- Does Not Alter Sheen

#### Directions of Use:

Clean E-Leather area with LC-364-E Cleaner before applying Protector. Apply a small amount to a clean, non-abrasive cloth. Apply E-Leather Protector to surface using a gentle, circular motion. Repeat process until entire surface has been treated. Allow to air dry away from extreme heated areas.

#### Chemical Properties:

Odor: Leather Smell  
Appearance: Milky White  
Specific Gravity at 68deg F: 1.005 or 8.37lbs/gal  
pH: 7.0  
Solubility in water: Soluble in water  
Stability: Product is stable

#### Health & Hazards Rating:

Category	NFPA	HMIS
Health	0	1
Reactivity	0	0
Flammability	0	0
Protective Equipment	None	None

#### LCP-382 Conforms to:

Boeing Specification D6-7127 Rev P: Cleaning interiors of commercial transport aircraft
